What these courses cover

Witchcraft has been practised for centuries and is one of the oldest religions, yet even in these modern times so much mystery still seems to surround its philosophies and practices. These courses explore Wicca, the modern term for Witchcraft in its entirety, starting with the basic major principles and teachings and layering from there. The workshops combine a mixture of talks, meditations and visualizations with the opportunity to touch and experience first-hand many of the tools used in a Wiccan ritual. The workshops also allow the students to work through and practice each section before moving on. Five 2 day workshops (Witchy 101, 102, 103, 104 & 105) have been designed to cover the fundamentals of Wicca from the essential basics through to setting up sacred space and preparing for ritual to Candle Magick, writing spells and Spell Casting.

Modules must be done in order and can't be pick and mixed. For example if you do module 1 & 2 but can't make 3, you would not be able to proceed to module 4 until you have completed module 3 with the next available group.

My name is Trace Robins. I was born in Melbourne, Australia and am privileged to have travelled widely but now call Manchester England my home.

From a young age I realised that I could see, feel and converse with spirits. For a long time this scared me and I struggled for many years, until I joined a meditation circle. Here I met people with similar interests and learned that there are many outlets for the psychically aware. It was also around this time that I came to Wicca. I had endured years of a strict catholic upbringing and catholic private schools and had the constant nagging feeling that there must be more, another path.

Wicca offered me this and for the first time in my life I felt like I had come home. Through my Past Life studies I have been able to explore many life times as a Witch, layers and layers of witchy energy flowing through my DNA. I now embrace Wicca fully and incorporate many of the Wiccan philosophies into sessions that I do with my clients. I have found that ritual and the knowledge and use of the elements and natural energies to be a fantastic aid in performing house clearings, cosmic ordering and calming techniques to name but a few. I would love to have the opportunity to share these with you.
